Profile

Versatile and flexible cybersecurity professional with expertise in Vulnerability Assessment and Penetration Testing (VAPT). Certified Offensive Security Certified Professional (OSCP) and eLearnSecurity Junior Penetration Tester (eJPT). Proficient in identifying and mitigating security risks across networks and applications, and experienced in technical penetration testing on various platforms.

Education

2021 – 2024 **Bachelor of Business Administration - Computer Application [BBA-CA]**
Savitribai Phule Pune University
GPA 8.6

Certification

OSCP (Offsec Certified Professional) ✓ Credential ID 92620888 January 2024	eJPT (eLearnSecurity Junior Penetration Tester) ✓ Credential ID 79634453 October 2022
--	---

Volunteer Experience (CTF)

TryHackMe (THM) Solved 65+ rooms, ranking in the top 4%.	Hack The Box (HTB) Solved 40+ boxes.
OffSec Proving Grounds Solved 70+ machines.	VulnHub Solved 15+ machines.

Projects

Home Lab

In my Home Lab project, I've created a virtual network for hands-on learning. By setting up virtual machines and networks, I've explored practical cybersecurity simulations, like penetration testing and vulnerability assessment. This experience has deepened my understanding of real-world networks and fueled my passion for cybersec.

Skills

- | | | |
|--|---------------------------------------|-----------------------------------|
| • Vulnerability Assessment & Penetration Testing | • Web Application Penetration Testing | • Network Penetration Testing |
| • OWASP Top 10 Knowledge | • Active Directory Attacks | • Pivoting & Tunneling Techniques |
| • API Penetration Testing | • Python Scripting | • Documentation and Reporting |

Activities

Security Boat Community Meetup (May 2024)

Secured second place in a blockchain quiz competition, demonstrating understanding of blockchain technology.
